

Lincoln Anniversary Souvenir

The last photograph taken of President Lincoln—made on April the ninth, 1865, the same day that he received word from General Grant that Lee had surrendered, thus ending the Civil War. Five days later the emancipator passed away. On the left, the Emancipation Statue of Lincoln in Lincoln Park, Washington, D. C. The funds for the erection of this statue were contributed by the freed slaves of the United States.

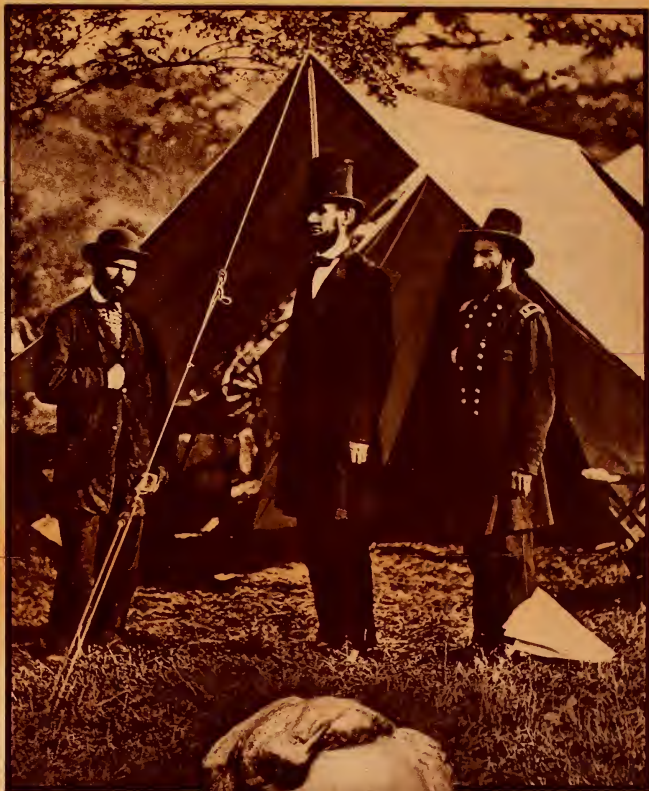

Abraham Lincoln

**PRESIDENT LINCOLN AT THE FRONT**

This photograph was taken by Brady in the Fall of 1864 when President Lincoln made a tour of inspection of the army of the Potomac. The tall figure of Mr. Lincoln with the characteristic "stove pipe" hat silhouetted against the white of the tent in the background is in strong contrast with the short figure of General McClellan, who faces him. This was the occasion when Lincoln sought first-hand information as to why the Union Army could not bring the war to a successful conclusion.

President Lincoln is shown in the picture standing with General Wright on the parapet of Fort Stevens on the Potomac River. The General is vainly warning Mr. Lincoln that his position is swept by the bullets of the Confederate sharpshooters. When an officer was shot down within 3 feet of him the Executive reluctantly stepped below.

## La-May Face Powder Is Pure!

—No White Lead—No Rice Powder—  
It Really Stays On Better Than Any Other.

Up to the present time it has been almost impossible to get a face powder to stay on longer than it takes to put it on. A specialist has at last perfected a pure powder that really stays on; that stays on until you wash it off. It does not contain white lead or starchy rice powder to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. This improved formula contains a medicinal powder doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and irritations. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. It is called La-may (French, Poudre L'Amel). Because it is pure and because it stays on better than any other, it is already sold by thousands of dealers everywhere. The large size is only fifty cents and the half size is twenty-five cents. When you use this delightful La-may and you see how wonderfully it beautifies your complexion, you will understand why it so quickly became the most popular complexion powder sold in New York.
